Solo exhibition

Water Memories

DL gallery presents on Friday 11th of October 2024 the solo exhibition of **b.** titled “**Water Memories**”.

Water Memories describes a remembrance of childhood summers. A series of works start from playing with water in a garden to reconstruct fragments that generate the impression from a memory rather than a faithful record of it.

During a conscious recollection of our memories, what prevails is a virtual, quite fluid condition akin to that of a dream. The clear, descriptive image alternates with abstract elements which are the parts of what conscious memory has not defined; a fish, flowers, a girl, the water but also summer, a playful mood and the sensation of sea salt on one’s skin.

The aim of the works is to explore the power of recollection as a process that’s almost meditative and inextricably existential.

Besides, apart from their physical status humans are also spiritual entities composed of memories, sensations, instincts and dreams.

Official Opening: Friday 11th October 2024 at 20:30 to 23:30
